Professional Summary

Animation graduate with experience in 3D modelling using tools such as Maya, Blender and ZBrush. Currently developing personal portfolio projects that build on my formal education and technical skills, while seeking an opportunity to contribute to a creative team and continue growing as a 3D modeller.

Program Skills: Maya and Arnold Renderer, Substance Painter, ZBrush, Blender, Premier, Illustrator, Photoshop, Houdini (Basic), Unreal Engine (Basic).

Education

Nottingham Trent University

Sep 2020 - Aug 2023

BA Animation: Upper Second-Class Honours

Relevant Projects:

Animation Specialist Project:

- A 3D look-development project consisted of a stylised antique shop and street complete with two rigged characters. Completed using Maya, ZBrush, Substance Painter and Photoshop.

3D Look Development Project:

- A modelling project consisting of a medieval tavern and all internal furniture and decor - modelled, textured and rendered using Maya.

Five-Shot "Micro" Movie:

- An ideated, written, storyboarded and animated short film. Completed using Maya demonstrating fundamentals such as exaggeration, anticipation, and secondary action.

Animation Dissertation:

- Academic paper discussing the advantages and disadvantages of animated propaganda. Furthered my understanding of research techniques, and the theory and context of animation.

The Highfield School

Sep 2012 - Aug 2019

A-Levels: Graphics: A, Art: B, Biology: C. **GCSE:** 9 in the range A*- A.

Other Projects and Courses

Blender 3D Modelling Foundations: Covered modelling, texturing and exporting to Unreal Engine.

Houdini School - HS-001: A course to gain comfortability in the program.

Research Project Character Creation: designed and created stylized characters in Illustrator.

Work Experience
